SUMMARY

My vision is to become a proficient software developer in a forward-thinking tech company. I aim to leverage my expertise in programming, problem-solving, and innovative thinking to create robust software solutions that address real-world challenges and enhance user experiences.

EDUCATION

Sagar Institute of Research and Technology, Madhya Pradesh   CGPA : 7.84
Bachelor of Technology in Computer Science Engineering   2021 - 2025

Anand Vihar model school, Babai   Percentage - 87%
Madhya Pradesh Examination Board– Class XII   2020 - 2021

Anand Vihar model school, Babai   Percentage - 86.8%
Madhya Pradesh Examination Board– Class X   2018 - 2019

SKILLS

- **Web Technologies:** HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, SQL, React.js, MongoDB.
- **Programming Languages:** python, C, Java, JavaScript.
- **Coursework:** Cloud Computing Basics, Object Oriented Programming, Web Development, Software Development Life Cycle (SDLC) & Models (Waterfall, Agile, V-Model, Spiral, Iterative)
- **Productivity & Collaboration Tools:** Git, GitHub, VS Code, IntelliJ IDEA, Postman, MongoDB Compass.

EXPERIENCE

Java Full Stack Development Training – QSpiders (May - Present)

Trained in Core Java, JDBC, HTML, CSS, JavaScript, SQL, and React.js with hands-on exposure to full stack development, real- time projects, and interview preparation.

Software Developer Intern – Techdome (Dec 2024 – Feb 2025)

Collaborated on the development of an AI-powered Interview Bot, leading the frontend implementation using React.js and Tailwind CSS. Built reusable components, fixed UI bugs, enhanced layout consistency, and contributed to delivering a clean, user-friendly interface for real-time interview simulations.

PROJECTS

Employee management system

HTML | CSS | JavaScript | React.js | TailwindCSS | Localstorage
- Developed a fully functional Employee Management System with role-based dashboards for Admins and Employees.
- Enabled Admins to assign tasks and track progress, while Employees can view and update task status.
- Built an interactive, responsive UI using React and Tailwind CSS, with data persistence via Local Storage.

FitClub – Fitness Website

HTML | CSS | JavaScript | REACT JS|TailwindCSS
- Designed and developed a multi-page fitness website showcasing services, plans, and client testimonials using React and Tailwind CSS.
- Implemented clean, organized code structure using reusable React components for scalability.
- Currently optimizing the site for full responsiveness and better user experience on all devices.

Apple Vision Pro

HTML | CSS | JavaScript | GSAP |Tailwind CSS
- Recreated a responsive and visually engaging version of Apple's Vision Pro product page.
- Showcased immersive features like spatial computing, eye and hand tracking, and high-resolution displays.
- Demonstrated skills in layout design, content structuring, and scroll-based interactions to simulate a product landing experience.

ACHIEVEMENTS

- Solved over 100+ problems across platforms like LeetCode, GeeksforGeeks.
- Earned Silver Badges in C Language and Java Language on HackerRank.
